

# Eligible Product List

All product specifications and installation quality must meet or exceed applicable local and state permitting, codes and health and safety standards. RenewPACE FL requires permits for many of the products below if required by the local jurisdiction. All products must be installed per manufacturer's specifications. All products must be permanently installed and remain at the property upon sale or transfer.

Product Category	Product Type	Eligibility Criteria	Permit Needed?	Max Term
Appliances	Clothes Dryer	Product must comply with DOE Appliance Efficiency and Equipment Standards. Product must be permanently affixed to the home.	No	10
Appliances	Clothes Washer	Product must comply with DOE Appliance Efficiency and Equipment Standards. Product must be permanently affixed to the home.	No	10
Appliances	Dishwasher	Product must comply with DOE Appliance Efficiency and Equipment Standards. Product must be permanently affixed to the home.	No	10
Appliances	Freezer	Product must comply with DOE Appliance Efficiency and Equipment Standards. Product must be permanently affixed to the home.	No	15
Appliances	Generator	Product must be fueled by natural gas or propane. (Gasoline or diesel generators are not eligible.) Product must be permanently affixed to the home.	Yes	20
Appliances	Refrigerator	Product must comply with DOE Appliance Efficiency and Equipment Standards. Product must be permanently affixed to the home.	No	15
Electric Vehicle Charging Station	Electric Vehicle Charging Station	Product must be a Level 2 charger with SAE J1772 standard charging plug.	Yes	10
Energy Storage	Advanced Energy Storage System	Product must be designed for daily cycling.	Yes	10
Fuel Cells	Stationary Fuel Cell Power System	System must be certified as meeting the ANSI/CSA America FC1 standard. Installation must comply with the Standard for the Installation of Stationary Fuel Cell Power Plants (NFPA 853).	Yes	10
HVAC	Air-Source Heat Pump	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	15
HVAC	Boiler - Gas High Efficiency	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	20
HVAC	Boiler - Oil High Efficiency	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	20
HVAC	Boiler - Steam	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	20
HVAC	Ceiling Fan	Product must comply with DOE Appliance Efficiency and Equipment Standards.	No	10
HVAC	Central Air Conditioner	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	15
HVAC	Duct Insulation	Product must comply with Florida Building Code.	No	20
HVAC	Duct Replacement	Product must comply with Florida Building Code.	No	20
HVAC	Duct Sealing	Product must comply with Florida Building Code.	No	20
HVAC	Ductless Mini-Split Air Conditioner	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	15
HVAC	Ductless Mini-Split Heat Pump	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	15
HVAC	Energy Recovery Ventilation (ERV) System	Product must be certified by the Home Ventilating Institute (HVI).	No	15
HVAC	Furnace - Gas	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	20
HVAC	Furnace - Oil	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	20
HVAC	Gas Fireplace	1. Product must include a closable metal or glass doors covering the entire opening of the firebox. 2. Installation must include a combustion air intake to draw air from outdoors and a flue damper. 3. Continuously burning pilot lights are prohibited. 4. A copy of the pulled permit or permit number must be submitted for this product prior to funding.	Yes	20
HVAC	Geothermal Heat Pump	Product must meet the criteria below: a. Ground water-source heat pumps (cooling): EER ≥ 16.2, b. Ground water-source heat pumps (heating): COP ≥ 3.6, c. Ground-source heat pumps (cooling): EER ≥ 13.4, d. Ground-source heat pumps (heating): COP ≥ 3.1	Yes	20
HVAC	Heat Recovery Ventilation (HRV) System	Product must be certified by the Home Ventilating Institute (HVI).	No	15
HVAC	Pellet Stove or Fireplace Insert	Product must be on the List of EPA Certified Wood Stoves.	No	20
HVAC	Programmable Thermostat	Product must comply with Florida Building Code.	No	15
HVAC	Ventilating Fan	Product must comply with Florida Building Code.	No	10
HVAC	Whole House Fan	Product must comply with Florida Building Code.	No	20

# Eligible Product List

HVAC	Wood Stove or Fireplace Insert	Product must be on the List of EPA Certified Wood Stoves.	No	20
Insulation and Air Sealing	Air Sealing	Product must comply with Florida Building Code.	No	20
Insulation and Air Sealing	Attic Rafter Insulation	Product must comply with Florida Building Code.	No	25
Insulation and Air Sealing	Basement or Crawlspace Insulation	Product must comply with Florida Building Code.	No	25
Insulation and Air Sealing	Ceiling Insulation	Product must comply with Florida Building Code.	No	25
Insulation and Air Sealing	Floor Insulation	Product must comply with Florida Building Code.	No	25
Insulation and Air Sealing	Wall Insulation	Product must comply with Florida Building Code.	No	25
Lighting	Indoor Lighting Fixture	Product must be ENERGY STAR Certified or use LED technology.	No	20
Lighting	Lighting Control	The product must be one of the following lighting control types: a. Automatic Time-Switch, b. Daylight/Photo-Sensor, c. Dimmer, d. Occupancy/Motion/Vacancy Sensor.	No	20
Lighting	Outdoor Lighting Fixture	Product must be ENERGY STAR Certified or use LED technology.	No	20
Pool Equipment	Automatic Pool Cover	Product must be automatic.	No	10
Pool Equipment	Gas Pool Heater	Product must comply with Florida Building Code.	Yes	10
Pool Equipment	Heat Pump Pool Heater	Product must comply with Florida Building Code.	Yes	10
Pool Equipment	Pool Filter	Product must be a cartridge pool filter.	No	5
Pool Equipment	Pool Pump and Motor	Product must comply with Florida Building Code.	No	10
Roofing and Siding	Cool Roof - Performance	One of the following performance criteria must be met in order to be eligible: a. Eligible Attic Insulation is installed (R38), b. Eligible Duct Replacement is installed, c. Eligible Duct Sealing and Duct Insulation is completed, d. Eligible Radiant Barrier is installed, e. 1 inch air-space is installed between top of roof deck and bottom of roofing product, f. Insulation is installed above roof deck with R-value $\geq 2$ .	Yes	25
Roofing and Siding	Cool Roof - Prescriptive	Product must meet ENERGY STAR Standards.	Yes	25
Roofing and Siding	Exterior Coating	Product must have solar reflectance $\geq 0.5$ as tested by a third-party laboratory using ASTM C1549-09 test method. Product color must be listed on the Renew Financial Exterior Coating Pre-Approval List.	Yes	20
Roofing and Siding	Insulated Siding	One of the following performance criteria must be met in order for the product to be eligible: a. The siding includes an insulated backing with R-value $\geq 2$ , b. Insulation with R-value $\geq 2$ is installed beneath the siding.	No	25
Roofing and Siding	Radiant Barrier	Product must comply with Florida Building Code.	No	25
Solar Photovoltaic	Inverter	None.	Yes	20
Solar Photovoltaic	Solar Panel - With Monitoring	Product must be on the Florida Solar Energy Center List of Registered Modules.	Yes	25
Solar Photovoltaic	Solar Panel - Without Monitoring	Product must be on the Florida Solar Energy Center List of Registered Modules.	Yes	25
Solar Thermal	Solar Pool Heater	System must have OG-100 System Certification by Solar Rating and Certification Corporation (SRCC).	No	15
Solar Thermal	Solar Water Heater	Product must comply with Florida Building Code.	Yes	15
Water Heating	Electric Heat Pump Tank Water Heater	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	10
Water Heating	Electric Tankless Water Heater	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	10
Water Heating	Gas Storage Tank Water Heater	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	10
Water Heating	Gas Tankless Water Heater	Product must comply with DOE Appliance Efficiency and Equipment Standards.	Yes	20
Water Heating	Hot Water Pipe Insulation	Product must comply with Florida Building Code.	No	10
Water Heating	Hot Water Tank Insulation	R-value $\geq 6$ .	No	10
Water Heating	Indirect Tank	Product must be attached to an eligible heating system.	No	15
Water Heating	Water Heat Recovery	Heat exchanger must transfer waste heat from drain to domestic hot water system.	No	25
Water Heating	Water Softener	Product must be a central cation-exchange water softener. (Descalers, water conditioners, and other water treatment products are not eligible.)	No	20
Wind Energy	Small Wind Turbine	None.	Yes	20

## Eligible Product List

Wind Resistance	Gable-End Bracing	Product must comply with Florida Building Code.	Yes	25
Wind Resistance	Roof Deck Attachment Strengthening	Product must comply with Florida Building Code.	Yes	25
Wind Resistance	Roof-to-Wall Connection Reinforcement	Product must comply with Florida Building Code.	Yes	25
Wind Resistance	Secondary Water Barrier	Product must comply with Florida Building Code.	Yes	25
Wind Resistance	Storm Shutter	Product must comply with Florida Building Code.	Yes	20
Wind Resistance	Wind-Resistant Door	Product must comply with Florida Building Code.	Yes	25
Wind Resistance	Wind-Resistant Garage Door	Product must comply with Florida Building Code.	Yes	15
Wind Resistance	Wind-Resistant Shingles	Product must comply with Florida Building Code.	Yes	25
Wind Resistance	Wind-Resistant Window	Product must comply with Florida Building Code.	Yes	25
Windows and Doors	Applied Window Film	Product must be NFRC Certified.	No	10
Windows and Doors	Door	Product must comply with Florida Building Code.	Yes	25
Windows and Doors	Exterior Shading Product	Product must be permanently installed on the building exterior to shade at least one window or door. The following products are eligible: a. Awning, b. Exterior window shade, c. Solar screen, d. Patio cover, e. Roof overhang. (Other exterior structural elements are not eligible.)	No	15
Windows and Doors	Interior Window Treatment	Product must be permanently installed on the interior of a window or door. The following products are eligible: a. Blinds, b. Shades, c. Interior Shutters. (Draperies, Insulated Panels, Mesh Screens, and Storm Panels are not eligible.)	No	10
Windows and Doors	Skylight	Product must comply with Florida Building Code.	No	20
Windows and Doors	Tubular Daylighting Device	Product must comply with Florida Building Code.	No	20
Windows and Doors	Window	Product must comply with Florida Building Code.	Yes	25
Enabling Work	Enabling Work	Work must be installed on the property. Work must enable the installation of an eligible product. Total cost of Enabling Work cannot exceed \$10,000 and 25% of the total project cost.	No	5
Custom Product	Custom Product	Product must be approved by Program Administrator. Submissions can be entered here: <a href="https://renewfinancial.com/custom-product-request/">https://renewfinancial.com/custom-product-request/</a> .	TBD	TBD
